Professor Paul Healy
Harvard Business School

Professor Paul Healy joined Harvard Business School as a Professor of Business Administration in 1997 and is currently the James R. Williston Professor of Business Administration and Head of the Accounting & Management department. His primary teaching interests include corporate financial reporting and analysis, corporate governance, and equity research in capital markets. Professor Healy received his B.C.A. Honors (1st Class) in Accounting and Finance from Victoria University, New Zealand in 1977 and is a New Zealand CA. During his honors studies in New Zealand, Paul first read Ball and Brown’s seminal paper. The paper and the empirical studies that followed it inspired Paul to apply for doctoral programs in the US and to embark on an academic career. He subsequently joined the doctoral program at the University of Rochester, where he received his M.S. in Economics in 1981, his Ph.D. in Business in 1983. In New Zealand, Professor Healy worked for Arthur Young and ICI. Prior to joining Harvard, Professor Healy spent fourteen years on the faculty at the M.I.T.

Professor Healy’s research includes studies of the role and performance of financial analysts, how firms’ disclosure strategies affect their cost of capital, the performance of merging firms after mergers, and managers' financial reporting incentives, and has been published in many of the leading accounting and finance journals. In 1990, his article ‘The Effect of Bonus Schemes on Accounting Decisions,’ published in Journal of Accounting and Economics, was awarded the AICPA/AAA Notable Contribution Award. In addition, Professor Healy is the coauthor of one of the leading financial analysis textbooks, Business Analysis and Valuation, which was awarded the AICPA/AAA’s Wildman Medal for contributions to the practice in 1997, and the AICPA/AAA Notable Contribution Award in 1998.
