The aim of the Australian Colloquium of Superannuation Researchers is to provide a forum for superannuation and retirement income experts from academia, the public sector and the superannuation and wealth management industry to meet, discuss and present their research.

**Background**

The world’s population is ageing. Due to a combination of falling birth rates and increased longevity, the next few decades will see a significant increase in the number of older people as well as an increased proportion of aged persons. In Australia, the aged dependency ratio will more than double from around 19% to over 40% over the next 40 years. Similar trends are evident globally: in Asia, over the same period, the aged dependency ratio will increase almost threefold from 10% to around 27% and in Europe from 23% to around 48%.

The financial consequences of longevity are significant and complex. Particular issues and challenges relate to:

- the adequacy and sustainability of public and private pensions and retirement incomes;
- the financing of health expenses, aged care and public services generally;
- the development of new financial products to address increasing longevity; and
- the impact of technology on longevity and the financing of retirement, aged care and health expenses.

**Colloquium Program**

The first day of the 2007 colloquium (Thursday 19th July) will focus on issues associated with the **Financial Consequences of Longevity**, while the second day (Friday 20th July) is for contributed papers on wider issues relating to superannuation and pensions.

A draft program will be posted on our website [www.cps.unsw.edu.au](http://www.cps.unsw.edu.au) closer to the colloquium dates.

**Call for Papers**

Papers on issues associated with the **Financial Consequences of Longevity**, as well as superannuation and retirement incomes issues more generally, from researchers in academia, the public sector and the superannuation and wealth management industry, will be welcomed.

The outline of proposed papers should be received by the conference convenor, Associate Professor John Evans (john.evans@unsw.edu.au), no later than Friday, 13th April 2007. If you would like to discuss a possible presentation, contact Associate Professor John Evans by email (john.evans@unsw.edu.au) or on +61 414 643658.

Final papers should be no more than 30 pages in length (A4, double-spaced) and must be received by the conference convenor no later than Friday, 29th June 2007. PowerPoint presentations should be received no later than Monday, 16th July 2007.

**Deadline for submission of paper outline/proposal:**

Friday, 13 April 2007

**Deadline for submission of final paper:**

Friday, 29 June 2007

**Deadline for submission of PowerPoint presentation:**

Monday, 16 July 2007

**Registration Costs:**

- $500 Full Registration  OR
- $300 Registration for full time academics and postgraduate students

(All amounts include GST)

Registration includes the conference dinner on the evening of **Thursday, 19th July 2007**. Please indicate whether you will be attending the conference dinner:

- I will be attending the conference dinner  OR
- I will not be attending the conference dinner

**Dietary requirements:**

The closing date for registration is Friday, 29th June 2007. Early registration is recommended.
