Annual Report 2002

SCHOOL OF ECONOMICS

□ THE YEAR IN REVIEW

In 2002 the School of Economics enjoyed another successful year characterised by strong research performance, growth in student numbers and significant successes by staff and students.

The School maintained its excellent performance in external grant funding with 3 successful ARC discovery grants (awarded to Denzil Fiebig, Garry Barrett and Peter Robertson), 2 successful ARC linkage grants (awarded to Kevin Fox and Robert Hill) as well as numerous Faculty funded grants. Denzil Fiebig was also part of a team of researchers that was awarded a NHMRC Program Grant, the only such grant awarded in health services research and health policy and one of the largest Australian research grants in the social sciences. Garry Barrett and Hazel Bateman were both awarded Non-Professorial Research Achievement Awards by the Faculty of Commerce and Economics.

2002 saw important personnel changes with the appointment of a new professor – Adrian Pagan (on a part-year basis with the Australian National University). As well, Paolo Giordani (Ph.D. from Stockholm University, Sweden) and Rachida Ouyse (Ph.D. from Boston College, USA) were appointed as Lecturers in the School. There were a significant number of promotions in the School with Louis Yeung promoted to Lecturer, Lisa Magnani and Peter Robertson promoted to Senior Lecturer, and Kevin Fox promoted to Associate Professor. The year also marked the retirement of three long-standing faculty members – Geoff Fishburn (29 years of service), John Perkins (32 years service) and Nripesh Podder (33 years service).

There was also significant change in the administrative staff of the School. Nadine Caisley and Clea Bye joined the School and, along with Catriona Reid, worked as a team to enhance the administrative efficiency of the School. During 2002 both Aline Diné and Sue Nelson retired, after 37 and 14 years, respectively, of tireless service to the School.

There were some changes to academic administrative roles within the School. In March Denzil Fiebig took over as Head of School from John Piggott. Hazel Bateman continued as Associate Head of School, Peter Robertson continued in the role of Undergraduate Coordinator while Bill Schworm replaced Minxian Yang (who took leave from the School) as Postgraduate Coordinator. Trevor Stegman continued as MCom Coordinator while Garry Barrett and Denise Doiron took over from Geoffrey Fishburn as Honours Coordinators. Kevin Fox was appointed to the position of Director of Centre for Applied Economic Research (CAER) for a period of three years.

On the student side we saw strong growth in undergraduate student numbers as well as continued interest, from both UNSW and external students, in the fourth year Honours and PhD programs.

Finally, many staff continued to provide valuable service to the Faculty, the University and the profession with their participation on committees, advisory boards, editorial boards. Notably, Tony Owen was successful in a ballot to elect the President of the International Association for Energy Economics. This is the world's premier association of energy professionals with over 3,400 members in 70 countries and with local affiliations in over 30 countries. Tony has long been the driving force and President of

SCHOOL OF ECONOMICS

the Australian affiliate. He now moves on to a much bigger stage. He will be President elect in 2003 and will take over as President in 2004.

For the School of Economics 2002 was a year of continued academic excellence.

MEMBERS OF THE SCHOOL

□ PROFESSORS

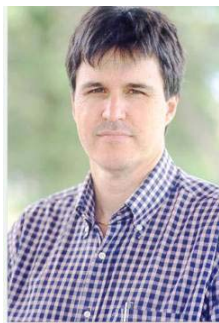

Ronald Bewley

BA Sheff,
PhD UNSW, FASSA

Ron Bewley completed his PhD at UNSW in 1982, publishing a revised version as *Allocation Models* (Ballinger: Cambridge) in 1986. He has held visiting teaching and research positions at the Universities of Pennsylvania (1973), Manchester (1979, 1982, 1985), Florida (1985), Sydney (1989) and California (1997). He is a Past-President of the Economic Society of Australia (NSW Branch) Inc. and was elected a Fellow of the Academy of Social Sciences in Australia in 1995. He is an Associate Editor of the *International Journal of Forecasting*.

His current research interests include theoretical and empirical time series analysis with a special interest in forecasting applications. A strong interest has been maintained in demand analysis. He has received five competitive research grants from the Australian Research Council as well as from the European Union and the Reserve Bank of Australia. He has been retained as a consultant by many large corporations and financial institutions on subjects ranging from asset allocation to industry model building. He was a member of the Forecast Advisory Committee for the NSW Treasury and completed a project on optimal debt levels for the New Zealand Treasury. He has also consulted with ARIA for a number of years lobbying on CD prices and designing and updating the ARIA music charts.

Professor Bewley currently holds the position of Head, Quantitative Equity Research at the Commonwealth Bank of Australia, 120 Pitt Street, Sydney.

Denzil Fiebig

BCom MCom UNSW,
PhD USC

Denzil took up his current position of Professor in the School of Economics in 2001. This represents a return to the University of New South Wales where he started his academic career while studying for his master's degree. After completing a PhD from the University of Southern California under the supervision of Professor Henri Theil, Denzil joined the Department of Econometrics at the University of Sydney in 1983, was its Head from 1992 to 1999 and in 2000 was promoted to a personal chair. He has also held teaching positions at the Universities of Wollongong and Southern California, has been a visiting scholar at the University of Florida, University of Southern California, Victoria University of Wellington and Center at Tilburg University and since 1999 has been a Research Fellow with the Center for Health Economics and Evaluation (CHERE) at the University of Sydney. His current research interests are in microeconometrics with emphasis on modelling utilization of health care and services and in particular on modelling the interaction between doctors and patients.

MEMBERS OF THE SCHOOL

□ PROFESSORS (Cont)

Adrian Pagan

BEC(Qld),
PhD (ANU) , FASSA

Adrian Pagan is Professor of Economics in the Research School of Social Sciences at the Australian National University and is also Professor of Economics in the Faculty of Commerce and Economics at the University of New South Wales.

He has published many papers in the area of theoretical and applied econometrics. He is a Fellow of the Academy of Social Sciences, the Econometric Society and the Journal of Econometrics; a Medalist Fellow of the Modeling and Simulation Society of Australia and New Zealand; and has been awarded the Distinguished Fellow Medal of the Economic Society of Australia. He has held visiting and permanent appointments at a number of universities around the world including the University of Oxford, the University of Rochester, Princeton University, Yale University, Johns Hopkins University and the University of California at Los Angeles.

His interests are in macro-econometric modeling and their uses in policy analysis and for the explanation of business cycles.

Bill Schworm

BA NC,
MA V/V,
PhD Was

William Schworm is a Professor in the School of Economics at the University of New South Wales. He took up this position in 2001 with previous appointments at the University of Sydney (1995 - 2000) and the University of British Columbia (1976 - 1994).

Bill received an undergraduate degree (BA) in Economics from the University of North Carolina in 1965, a Masters degree (MA) in Economics from the University of Virginia in 1972, and a PhD from the University of Washington in 1977.

Bill has held visiting appointments at Duke University (1980-1981), University catholique de Louvain (1984-1985), University de Montréal (1987), University of Western Ontario (1987-1989), Boston University (1999) and the Australian National University (2001). He has held consultancies at the Bank of Canada (1982), the Canadian Royal Commission (1984), and the China Institute of Mining and Technology (1988). He served on the Editorial Advisory Board of the Canadian Journal of Economics during 1992 - 1995.

Bill's primary areas of research are investment, growth, and aggregation. He has published extensively in the areas of investment with credit constraints and the aggregation of capital. His current interests include the role of information and risk aversion on the selection of investment projects and the measurement of risk.

MEMBERS OF THE SCHOOL

□ PROFESSORS (Cont)

John Piggott

BA Syd,
MSc PhD Lond,
FASSA

John Piggott is Professor of Economics and Director of the Centre for Pensions and Superannuation at the University of New South Wales. At UNSW, he is also Associate Dean (Research), Faculty of Commerce and Economics, and a Director of UNSW Professorial Superannuation Ltd. He holds a BA from the University of Sydney, and the MSc and PhD degrees from the University of London. Past appointments include research and teaching positions at the University of Western Ontario, Canada, and at the Australian National University, Canberra. He was elected a Fellow of the Academy of the Social Sciences in Australia in 1992.

John has a long standing interest in issues relating to retirement and pension economics. For some years now he has had a policy and research interest in the evolving pension reform debate in the Asian region. Current research topics include retirement benefits and annuitisation, life-cycle asset allocation and insurance, self annuitisation within a group, and the role of housing as a retirement asset.

□ EMERITUS PROFESSOR

John Nevile

BA WA,
MA PhD Calif,
Hon DSc UNSW,
FASSA

John Nevile was Professor of Economics at UNSW 1965-1992, and is now Emeritus Professor and Visiting Professor. He was elected a Fellow of the Academy of Social Sciences in 1972 and was President of the Economics Society of Australia from 1980 to 1984. John has been a member of government advisory bodies and has also been a consultant for major Australian Government enquiries and for the IMF. In recent years his research interests have been in the fields of macroeconomic policy, unemployment and income distribution, with a side interest in theoretical macroeconomic modelling. In 2000 he received the Distinguished Fellow Medal of the Economic Society of Australia.

□ VISITING PROFESSOR

Nanak Kakwani

MA PhD Delhi,
FASSA

Nanak was appointed as the foundation professor of statistics at UNSW in December 1970. Before joining UNSW, he was a lecturer at the University of Birmingham, England, Reader in Econometrics at Punjabi University and Professor of Econometrics at Kurukshetra University in India. His research includes econometrics theory, welfare economics - inequality and poverty, public finance and development economics. Nanak was elected a Fellow of the Academy of Social Sciences in Australia 1979 and was awarded the prestigious Mahalanobis Memorial Gold Medal in 1985 for outstanding research in quantitative economics.

MEMBERS OF THE SCHOOL

□ ASSOCIATE PROFESSORS

Robert Conlon
MCom PhD UNSW

Robert has had considerable experience in Australian trade and industry policy in both public and private sectors. He has continued his interest in Australian trade and industry and is currently engaged in two joint research projects, the first (with John Perkins) on the development of the Australian automobile industry; the second (with Garry Barrett) on health insurance.

Robert Hill
BA York,
MA PhD UBC

Robert Hill has been at the University of New South Wales since 1995. His research interests include the measurement of inflation, comparisons of living standards across countries, index number theory, and environmental accounting. He has published widely in leading international journals. He also currently has two ARC Linkage Grants (with Kevin Fox) to work with the Australian Bureau of Statistics on comparisons of the cost of living across cities in Australia and the use of scanner data in the construction of the consumer price index.

Geoffrey Kingston
BA PhD ANU

Geoff Kingston obtained his Bachelor and doctoral degrees from the ANU. Before arriving at UNSW, he lectured at the University of Western Ontario, Queensland University and Sydney University. He has published in the Quarterly Journal of Economics, the Economic Journal, the International Economic Review, the Journal of International Money and Finance and several specialist economics journals published by the North-Holland group. Geoff has undertaken consulting assignments for EPAC, CRA, the NSW Crown Solicitor's Office, and numerous law firms. Recent research interests include personal finance (superannuation), international finance and taxation policy.

Peter Kriesler
BEc MEc Syd,
PhD Cantab

Peter Kriesler prior to taking up his current appointment at UNSW studied at the University of Sydney before completing a PhD at the University of Cambridge. He is Deputy Director of two UNSW Centres, the Centre for Applied Economic Research, and the Australian Human Rights Centre. He is an editor of the Australian Journal of Human Rights and the Economic and Labour Relations Review. His research interests include history of economic thought, heterodox economics, the Australian economy, impacts of globalization and economic perspectives on human rights

John Lodewijks
BEc Syd, MEc NE
MA PhD Duke

John Lodewijks is Associate Professor, School of Economics, University of New South Wales. He was formerly Head of the Department of Economics, Director of the Centre for South Pacific Studies, member of the Organizing Committee and Scientific Program Committee, XIX Pacific Science Congress, and Editor of the History of Economics Review. He has published more than sixty articles, a number of which deal with the history of modern economics and issues of trade, growth, employment and structural adjustment in the South Pacific.

MEMBERS OF THE SCHOOL

□ ASSOCIATE PROFESSORS (Cont)

David Meredith

BA PhD Exe,
GradCertHEd UNSW

David obtained his initial training in Economic History at Exeter University, England and took up a lectureship at UNSW in 1973. He has been responsible for teaching a wide variety of Economic History subjects on Britain, Europe, Australia and the international economy, as well as the growth and development of international business. He has published on economic development in Britain's former tropical colonies, on convict workers in Australia and on Australia's relations with the international economy. David is currently engaged in collaborative work on labour and economic development in colonial Australia and on a project that compares Australian economic development with that of other lands of European settlement in the southern hemisphere.

Glenn Otto

BEC Qld,
MA ANU,
PhD Qu

Glenn Otto joined the School of Economics as a Lecturer in 1991 after undertaking a PhD in Economics at Queen's University in Canada. Previously he held positions at ANU and the Treasury. Glenn's research interests are in the areas of macroeconomics and applied econometrics and more specifically working on models of the current account and external debt, public investment and productivity and business cycles. His recent research has been concerned with identifying the effect of terms of trade fluctuations on the trade balance and output in developed and developing economies and understanding the mechanisms that cause output in various countries to be correlated. He is currently working on empirical models of the dynamic relationship among consumption, income and external assets.

Anthony Owen

BA Leic,
MA PhD Kent, FSS

After graduating from the Universities of Leicester and Kent, Tony joined the academic staff of the University of Bradford Management Centre. In 1974 he joined the School of Economics as a lecturer and is now Associate Professor. From 1989 to 1995 he was Director of the Centre for Applied Economic Research, and is currently Director of the University's Energy Research, Development and Information Centre (ERDIC). His research interests include applied econometrics and natural resource and environmental economics. Tony is President-elect of the International Association for Energy Economics (President in 2004) and President of the Australian Association for Energy Economics. He was elected a Fellow of the Royal Statistical Society in 1971.

John Perkins

PhD, UNSW
BScEcon, Hull Uni

John was educated at the universities of Hull and Munich before joining the School of Economics in 1970. His current research interests span the economic history of Australia and Europe/Germany and Britain, including in particular the economy of Nazi Germany and the development of retailing and agricultural policy.

MEMBERS OF THE SCHOOL

□ ASSOCIATE PROFESSORS (Cont)

Nripesh Podder
MA Calc,
PhD UNSW

Nripesh has been teaching in the Department of Econometrics, UNSW, since June 1969. He enrolled as a part-time student for PhD in late 69 and received the degree in the shortest possible time in 1971. He worked as a consultant to Taxation Review Committee (Asprey Committee), Poverty Inquiry Commission, and the Australian Bureau of Statistics in the seventies. Nripesh visited London School of Economics; Indian Statistical Institute; Survey Research Centre, University of Michigan; and University of California, Berkeley as a visiting scholar/professor. His main research interests are family budgets analysis, economics of inequality and poverty.

Eric Sowe
BEc Syd,
BSc UNSW,
MSc Lond,
PhD UNSW

Eric Sowe has extensive experience in teaching quantitative economics and statistics courses at every level, and encourages students of economics to take a broad view of the richness of their discipline. His research areas include econometric modelling and the methodological evaluation of econometric techniques. His concern for maintaining high standards in university education has led to an active involvement over many years in local, national and international activities to enhance the quality of teaching and learning. He has a particular focus on statistics education, and is currently an Associate Editor of the *Journal of Statistics Education*, an online journal of the American Statistical Association. He has recently stepped down from an elected membership of the UNSW Academic Board, after almost a decade of service. He holds a UNSW Vice-Chancellor's Award for Excellence in Teaching.

Trevor Stegman
BCom PhD UNSW

Trevor Stegman has taught quantitative methods and economics in the School of Economics to undergraduate and graduate students since 1976.

He has also held visiting teaching and research positions at the University of Cambridge, and adjunct teaching positions at Bond University and the Australian Graduate School of Management.

He has also been an invited visitor to the OECD and to Boston College.

His research interests include macroeconomic theory and policy, and labour market economics.

Geoffrey Waugh
BSc Syd,
MCom PhD UNSW

Before commencing at the University of New South Wales he worked as an industrial chemist and then taught mathematics at TAFE. His research interests include environmental and resource economics, and fisheries development and management in Australia, Asia, the south Pacific and North America. He has held positions at the South Pacific Forum Fisheries Agency in Honiara, and on the Fishing Industry Research and Development Council in Australia, has been a consultant to State and Federal Government Agencies, and International Agencies such as the South Pacific Forum and the World Bank. He is on the editorial board of the *Journal of Marine Resource Economics*. He has twice won the Vice-chancellors Award for Excellence in Teaching, and in 1999 he won the National Award for Economics and Commerce, and the Prime Minister's Award for Teaching Excellence.

MEMBERS OF THE SCHOOL

□ SENIOR LECTURERS

Christian Alaouze

MAgSci *Melb*,
MA PhD *Wisc*

After completing a MAgSci degree, Chris joined the Impact Project in 1975. In August 1977 he went to the Department of Economics at the University of Wisconsin, Madison, to study for a PhD in Econometrics. In 1982 Took a lectureship in Econometrics at the University of Melbourne. In 1985 he was a visiting lecturer in Agricultural Economics at La Trobe University and in 1986 took a position as a Senior Policy Advisor in the Department of Water Resources. In July 1988 he took a lectureship in econometrics at the University of New England and in February 1990 commenced at UNSW. Research interests are in the areas of applied econometrics, operations research, resource economics and microeconomic theory.

Garry Barrett

BEC *Syd*,
MA PhD *UBC*

Garry Barrett joined the School of Economics in 1995 after undertaking a PhD in Economics at the University of British Columbia. Garry's research and teaching interests include applied econometrics, empirical labour economics and welfare measurement. Garry currently has an ARC Discovery Grant to analyse poverty in Australia and an ARC Linkage Grant to examine elderly labour supply behaviour. He is currently working on a research project which uses consumption data to analyse trends in inequality and poverty in Australia, and to identify the impact of public policies and labour market developments on those trends.

Hazel Bateman

BEC, University of
Queensland
PhD, UNSW

Hazel holds an honours degree in Econometrics from the University of Queensland and a PhD in Economics from the University of New South Wales. During the 1980s Hazel worked for nearly 10 years as an economist in the public sector, mainly for the Australian Treasury where she was involved in macroeconomic modelling and forecasting, and taxation policy.

Hazel has research interests in the areas of public and private provision for retirement. Current research includes superannuation fund administrative costs and charges, and the governance, regulation and performance of superannuation and pension funds. Hazel has been a consultant on retirement income issues to a range of Australian and international organisations including the OECD, the World Bank, the Asian Development Bank, APEC, CEDA and the Australian Institute of Superannuation Trustees. Hazel is currently Deputy Director of the Centre for Pensions and Superannuation.

Gautam Bose

BA *Calc*,
PhD *USC*

Gautam Bose's research is primarily in the areas of microeconomic theory and development economics, with emphasis on problems that involve asymmetric information and strategic interaction (game theory). Gautam has recently done some work on models of intermediation, especially in markets with heterogeneous agents. His current projects include a theoretical study of change in the institutions that transmit information about individual reputations. He has also developing an interest in labour economics, working on a model that explains the choice of training technology for in-house training of workers.

MEMBERS OF THE SCHOOL

□ SENIOR LECTURERS (Cont)

David Clark
BEc PhD Syd

David Clark teaches both economics and economic history and has held visiting fellowships at the University of Cambridge and the Universite de Louvain, Belgium. David has worked full-time on the *Australian Financial Review* as an editorial writer and columnist, where his *Student Economics Briefs* - the best-selling economics book in Australian history - and commentaries have appeared for over a decade. He is also the author of a regular column in *Personal Investment*.

Denise Doiron
BA L'Uni de Moncton
MA PhD UBC

Denise's research and teaching interest include Labour Economics

Geoff Fishburn
BA PhD, UNSW

After a successful period as a student agitator at UNSW, Geoff took the logical next step by becoming a member of the University Council, meanwhile graduating with Honours (First Class and S.T.C. Medal) and PhD. His initial training and research were within the framework of the prevailing neoclassical orthodoxy, whose narrow formalism he then turned away from towards Political Economy. Geoff's current research interests are in the History of Economic Thought, the rhetoric of economic discourse, and the implications of the new information-based technology for economic analysis.

Lance Fisher
BA Macq,
MCom UNSW,
PhD Minn

Lance Fisher completed his Ph.D. in economics at the University of Minnesota (with a finance minor from the Carlson Graduate School of Management) in 1988. His research interests are in financial economics, macroeconomics and applied econometrics. Currently he is the recipient along with four others of a large ARC Discovery Grant on "Investing over the Life Cycle". His current research focus is on investigating the predictability of asset returns in the context of consumption smoothing models of macroeconomic behaviour. His principle teaching areas are financial economics, financial econometrics and applied time series econometrics.

MEMBERS OF THE SCHOOL

□ SENIOR LECTURERS (Cont)

Kevin Fox
MCom *Cant*,
MA, PhD *UBC*

Kevin Fox works in the field of economic measurement, with a focus on productivity and efficiency analysis. He has also made contributions to the literature on model selection criteria. After studying Japanese in Tokyo for two years, he studied economics at the University of Canterbury and the University of British Columbia. He joined the School in 1994. In 1997 he organised the International Conference on Public Sector Efficiency. He is a member of the Australian Bureau of Statistics Methodology Advisory Committee, and has been a consultant for agencies such as the Reserve Bank of New Zealand and the Asian Development Bank.

Elisabetta Magnani
MA *Yale*, Dottorato di
Ricerca *Bologna*,
PhD *Yale*

Since her appointment at UNSW in July 1996, Elisabetta has worked to expand the research work in the broad area of Labour Economics she began at Yale University as a PhD student. She has extensively worked on issues of labour market flexibility, particularly wages, employment arrangements and institutions. Her contribution to this growing literature has been both theoretical and empirical. More recently she has focused on outsourcing, particularly its effects on wages and workers' mobility, its impact on union bargaining power and the factors that can explain the rise in the use of outsourced labour inputs. Elisabetta's most recent research project involves the investigation of the opportunities that alternative employment arrangements can offer to older workers. Elisabetta has a side interest in sustainability. She has recently published on the effects of economic growth on environmental sustainability.

Mehdi Monadjemi
BS *Utah*,
MS PhD *Ill*

Before commencing with UNSW, Mehdi was an economist with the Reserve Bank of Australia. Prior to that he held an academic position at the National University of Iran.

Mehdi's research interests are associated with monetary economics and macroeconomic policies in an open economy.

Peter Robertson
BA *Otago*,
MEc *UNE*,
PhD *S Fraser*

Peter Robertson's research interests are in economic growth and the economies of developing countries, but also extend to environmental economics and international trade. Recently he has completed research on the causes of the post WWII economic growth in East Asian countries, as well as on the comparative long run growth performance of various countries since the mid 19th century. He is currently engaged in a project investigating the interactions between trade liberalisation, and economic growth.

MEMBERS OF THE SCHOOL

□ SENIOR LECTURERS (Cont)

Truong Truong
BE WA,
MA MEngSc Syd
PhD Macq
LLB Syd

Prior to taking up his teaching position at UNSW in 1984, Truong Truong worked for the Australian Gas Light Company (1981-83) and also the (previously) NSW Department of Environment and Planning (1983-84) as a Research Analyst. Promoted to a Senior Lecturer at UNSW in 1989, Truong also held position as a Visiting Associate Professor at the Centre for Global Trade Analysis, Purdue University, West Lafayette, Indiana, USA between 1998 and 2000. Truong returned to the School of Economics, UNSW, in June 2000.

Minxian Yang
BEng MEng
Wuhan, PhD
UNSW

After completing his Ph.D. thesis under Ronald Bewley in 1994, Minxian Yang became an ARC research associate in the School. He has been appointed as a lecturer in February 1996 and a senior lecturer in July 1998. He gained his master and bachelor degrees from *Wuhan University of Technology, China*. His field of research is time series econometrics.

□ LECTURERS

Diane Enahoro
MCom UNSW,
DipEd Syd

Diane Enahoro joined UNSW after leaving Nigeria where she held a lecturing position at the University of Lagos. She has been involved in business, project analysis and gender analysis in developing countries. Diane has extensive teaching and administrative experience. Her current interests include China and South-East Asian economies.

Jack Frisch
BEc Syd,
MA PhD Princeton

Jack Frisch has recently returned to the School following six years working as a consultant/advocate with disability groups. He has returned to the School to research and write a book on Disability Economics, while pursuing his "reading" interest in sustainable wealth creation and equitable resource distribution. Jack was a Lecturer in the School from 1990-1995.

His book will seek to bridge the gap between policy makers' lack of knowledge about Disability, and disability advocates' lack of knowledge about Economics. The book's principal proposition is that both the market system and the political system are inefficient and inequitable with respect to "the social welfare function" because of information asymmetry and bias.

From 1980 to 1990 Jack worked in financial markets as a money market and options trader, equity researcher, consultant and journalist. Outside the university, Jack continues to be passionately active as a consultant and advocate with disability groups, in particular with the Physical Disability Council of Australia and the National Caucus of Disability Consumer Organisations.

MEMBERS OF THE SCHOOL

□ LECTURERS (Cont)

Arghya Ghosh

BSc Presidency
College, MA Delhi,
PhD Minn

Obtaining his Ph.D. degree from University of Minnesota, Dr Arghya Ghosh joined the department on October 2000. His primary research interest areas are International Economics and Industrial Organization. In his dissertation – “Essays on Trade and Technology” - Arghya investigates the government's incentives to subsidize national firms in presence of cross-border technology transfer. In collaboration with other members of the school – he is currently working on (i) political economy of infrastructure investment (with Kieron Meagher) and (ii) entry regulation in vertical oligopolies (Hodaka Morita).

Kieron Meagher

MA Waikato,
PhD ANU

Kieron Meagher's research applies microeconomic theory to understanding situations that are more complex than can be described by a traditional price mechanism. Kieron's three main current areas of research are:

- (i) the economics of organisations, in particular management decision-making and authority structures;
- (ii) spatial competition and location theory; and
- (iii) political economics and voting theory.

The techniques employed in this research include incentive theory, hierarchy theory, discrete choice theory, Bayesian decision making and uncertainty, graph theory and the numerical simulation of complex systems.

Hodaka Morita

BA Tokyo,
MBA PhD Cornell

Hodaka Morita works in industrial organizations, economics of organizations and institutions, and economic analysis of Japanese Business and Government. He has been a lecturer at UNSW since 1999, and was a visiting lecturer at the Johnson Graduate School of Management at Cornell University in 2002-03. He has published in journals including *Economic Journal*, *Journal of Economics and Management Strategy*, and *Economica*.

Rachida Ouysee

BA INSEA,
PhD MA Boston
College, MA University
of Montreal

Rachida Ouysee fields of concentration are econometric theory, applied econometrics, financial econometrics and international finance with teaching interest in the additional fields of macroeconomics, statistics and quantitative methods.

Some of Rachida's current research interests involve implementing consistent model selection in large panels and determining the sampling distributions of the selection method. Applications to growth theory and to asset pricing models are of current interest. Second area of research interest is investigating the bootstrap methods in the case of generalized method of moment estimation of a rational expectations model

MEMBERS OF THE SCHOOL

□ LECTURERS (Cont)

Louis Yeung
MA, Manchester
University
GradCERHEd, UNSW
BSc, Makerere
University

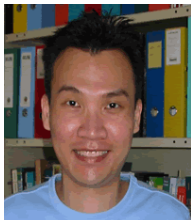

Louis taught at the University of Mauritius for 15 years. His current research interest is the economic development of Mauritius with special emphasis on trade policy and Industrialisation issues.

□ ASSOCIATE LECTURERS

Nicolas Gerber

BSc Uni Lausanne, MSc Uni College London

Nicolas's research interests are in the broad field of environmental economics. Current research topics include biodiversity measurement and conservation and renewable resources management.

Pak Kin Ho

BA Otago, MMS Waikato

Xiaolin Li

BA Dongbei, MCom UNSW

Patrick Lim

REPORTS FROM RESEARCH CENTRES

□ THE CENTRE FOR APPLIED ECONOMIC RESEARCH (CAER)

Summary of the Activities of CAER

From 1 July 2002, Dr Kevin Fox took over the role of Director from Emeritus Professor John Neville, who had served two terms as Director. Professor Neville made a great contribution to CAER over a number of years in various roles.

In 2002 CAER coordinated seven research groups:

- Economic Measurement
- Economic Policy and Equity
- Energy, Natural Resources and the Environment
- Labour Economics
- Macroeconomics
- Retirement Economics
- Time Series and Applied Macroeconomics

Results of CAER research were incorporated in 19 articles in refereed journals and nine book chapters in 2002. In addition, CAER published the book *The Urgency of Full Employment*, Ellen Carlson and William Mitchell, (eds), distributed by UNSW Press.

Other highlights include the following:

- CAER hosted an event in Anti-Poverty Week at the UNSW Bookshop: "The Price of Prosperity" and "Unemployment: The Tip Of The Iceberg". Launched by Chris Caton (Chief Economist, BT Funds Management), Professor Peter Saunders (Director, Social Policy Research Centre) and Professor John Neville.
- The Economic Measurement Group organised an international workshop (EMG'02) at UNSW, 6 September.
- CAER awarded three scholarships to B.Ec.(Honours) students.
- CAER provided sponsorship for the Society for Heterodox Economists Conference.
- CAER continued to publish (jointly with the Industrial Relations Research Centre) the academic journal, *Economic and Labour Relations Review*.

Through these and other activities, CAER continued to foster and promote applied economic research at UNSW and in the broader community.

REPORTS FROM RESEARCH CENTRES

❑ THE CENTRE FOR PENSIONS AND SUPERANNUATION (CPS)

Summary of the Activities of the CPS

The Centre for Pensions and Superannuation (CPS) was established in 2002 with the aim of providing a focal point for Australian and international researchers specialising in pension economics, financial strategies for life-cycle investment, financial governance, pension taxation, social security, superannuation law and related fields. During 2002 the CPS organised two conferences, hosted a number of international experts and sponsored both academic and policy-based research. Future plans include expanding links and collaboration with the public and private sectors (both in Australia and overseas) and securing a funding base.

Specific activities in 2002:

Conferences:

- Workshop on Pension Reform Issues in Asia, 4-5 March 2002.
- The Tenth Annual Colloquium of Superannuation Researchers: The Future of Superannuation, 8-9 July 2002.

Public Lecture:

- The World Bank's Position on Pension Reform: Issues and Open Questions, Robert Holmann, the World Bank.

Visitors:

- Edward Whitehouse, Axia Economics (UK) and consultant to the World Bank (January-March 2002).
- Olivia Mitchell, Executive Director Pension Research Council and Wharton Business School (July 2002).
- Robert Holzmann, Director of Social Protection, The World Bank (October 2002).
- Erik Hernaes, Director of the Ragnar Frisch Centre, University of Oslo (October-December 2002).

CPS Discussion Papers:

1. Takayama N (2002), *Reform of Public and Private Pensions in Japan*. Keynote address, 9th Annual Colloquium of Superannuation Researchers, University of New South Wales, July 2001.
2. Doyle S, Mitchell OS, and Piggott J (2002), *Annuity Values in Defined Contribution Retirement Systems: The Case of Singapore and Australia*. (also NBER Working Paper W8091).
3. McCarthy D, Mitchell OS, and Piggott J (2002), *Asset Rich and Cash Poor in Singapore, Retirement Provision in a National Defined Contribution Pension Fund*.
4. Whitehouse, E (2002), *Pension Systems in 15 Countries Compared: the Value of Entitlements*.
5. Bateman H (2002). 'Mandatory Private Retirement Savings Policies: What Have We Learnt?'
6. Doyle S and Piggott J (2002), *Consumer Preference and Annuity Design in Mandatory Defined Contribution Retirement Systems*.
7. Keenay G and Whitehouse E (2002), *The Role of the Personal Tax System in Old-Age Support: A Survey of 15 Countries*.
8. Disney R and Whitehouse E (2002), *The Economic Well-Being of Older People in International Perspective: A Critical Review*.
9. Usuki M (2002), *The New Investment Management Scheme for Japan's Public Pension Fund*.

REPORTS FROM RESEARCH CENTRES

CPS Discussion Papers: (Cont.)

10. Schieber S J (2002), *The Decade of the Employee: Workforce Challenges Facing the Developed Economies of the World over the Next Ten Years*. Keynote address, 10th Annual Colloquium of Superannuation Researchers, University of New South Wales, July 2002.
